

Dear _____,

I recently activated (<https://www.vowas.org/yes>) my VOWAS benefits and services. VOWAS improves the health and wellbeing of my household, and our community. It's been brought to my attention VOWAS leaders were in Washington, DC this past summer, and have been communicating with Congress and the President since 2017 to create and help institute “**20 hour full-time work weeks**” and “**twelve (12) one-week long 100% VOWAS-paid vacations annually**”.

The Do-It-Yourself (DIY) practice wheel (<https://www.vowas.org/diywheel>) may be helpful in enabling your staff, and/or those who choose to volunteer with you, with the time and resources to form the schedule and reserve the time and labor planning required to fully utilize the VOWAS benefits and services such as those mentioned previously.

I understand processing times to begin accessing VOWAS cash benefits are currently lengthy as Coronavirus created bottlenecks, slowdowns, and operational and staffing issues for most organizations.

I would like you to help introduce a program through the US Treasury, or through another funding institution, which enables VOWAS activated members such as myself access to a VOWAS debit card so we can begin to utilize cash benefits within seven (7) business days of our activation.
